Dolby Stereo allows full reproduction of a left, center, right and a surround channel. The use of these channels is left to the artistic discretion of the director; therefore, the listener may find that the amount of material recorded in the surround channel varies from film to film.

All titles shown are 35mm, except as indicated:

70 = 70mm Dolby Stereo; 70SS = 70mm Dolby Stereo with stereo surround.

(SR) indicates that the title had some or all Dolby Stereo spectral recording release prints.

*Indicates additions since last publication.
